

LLAO LLAO GOLF: An experience amidst lakes and mountains.

Llao Llao Resort, Golf & Spa has a magnificent 18-hole golf course, surrounded by Nahuel Huapi and Moreno Lakes, amidst imposing mountains and ancient forests. Golf lovers will have an unforgettable experience in one of the southernmost courses of the world, redesigned in 1994 by architect Emilio Serra.

The course has a driving range and large putting green. It is par 70 and has three par 5 holes, 10 par 4 holes and five par 3 holes.

The Club House at the Llao Llao Resort is a privileged place, ideal for a necessary break after an intense golf day, where guests can enjoy a light lunch or some exquisite blends of tea, cakes and homemade pastries in the afternoon.

Among the recreational activities associated with this sport, private or group lessons, tournaments and private events are often organized in the Club House.

A golf course with a history

The idea of building a hotel with the characteristics of the Llao Llao has always been to offer our guests a place to be in contact with Nature and to experience the pleasure of practicing this sport in a superb location. The original golf course, built in 1938 by architect Solar Dorrego, consisted of nine holes.

Remodeling work began in 1994 under the direction of architect Emilio Serra, who developed 9 holes with a set of 3160 yards on the original layout, taking about a year to complete this work.

The construction of the second nine holes began in early 1997, its completion achieved in record time. This work required a major earth movement and the formation of hills, elevated greens and specially designed lakes located in the middle of the field, providing particular characteristics, adapted to the demands of the modern game.

Pro Shop.

At the Pro Shop you will find the exclusive Llao Llao line of products, including gloves, balls, tees, bag-tag, caps, and an extensive range of clothes, as well as the assistance of professionals who will provide you with information regarding different golf activities.

Equipment rental.

Clubs. Graphite and steel shafts.
